

# The Cookout

The Cookout is designed to grow with you. Rather than a single fixed kitchen, it's a family of handcrafted outdoor units: open shelves, single-door cabinets, two-door cabinets, worktop sections and sink units that you can mix, match and line up to suit the space you've got and the way you like to cook.

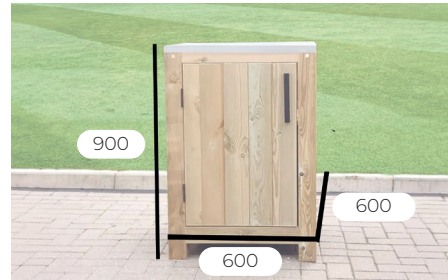

Every piece is built to the same high standards, so the units sit together comfortably however you choose to arrange them.

## CookOut Small Unit

Supplied as pre-assembled product.

- Includes:
